

# GEORGIA MARBLE - PEARL GREY™

● MARBLE

POLISHED

## DESCRIPTION

The thin, closely-packed and homogenous grain structure of this North American marble gives superior strength and resistance, which explains why it has been used for more than a century in indoor and outdoor architectural projects. Its white, gray and black veins create interesting movement. **GEORGIA MARBLE - PEARL GREY™** comes from the same quarry as **GEORGIA MARBLE - WHITE CHEROKEE™**.
